## **Foreword**

In our pursuit of sustainable development and the realization of the United Nations' Sustainable Development Goals (SDGs), the localization process plays a pivotal role. It involves careful consideration of thematic targets and indicators at the local level, integrating them into our local planning efforts. The significance of localized SDG targets cannot be overstated, as they serve as guiding beacons for Panchayats in formulating and executing their Gram Panchayat Development Plans (GPDP). The successful implementation of these plans is crucial for achieving the SDGs by the year 2030.

One of the key focus areas under Localized SDGs is Theme 7 – Socially Secured Village. “Every person in the village must feel cared for and all eligible must be covered by social security systems.”

As an esteemed apex training institution, the National Institute of Rural Development and Panchayati Raj (NIRDPR) is taking a proactive role in empowering State-level Master Trainers (SLMT) through Training of Trainers (ToT) sessions. These SLMTs, in turn, will impart knowledge and skills to District and Block-level Master Trainers, following a cascading approach. The primary objective of these training sessions is to equip Panchayati Raj Institutions (PRIs) with the expertise to meaningfully align GPDPs with SDG targets, fostering effective and impactful local development.

In pursuit of standardizing learning material, we are pleased to present the comprehensive module on Theme 7 – Socially Secured Village, developed by the Ms. Dipti Paridhi Kindo, Senior Consultant of the Centre for Panchayati Raj, Decentralized Planning, and Social Service Delivery (CPRDP&SSD) at NIRDPR. This module is divided into five parts, encompassing the Training design, Session-wise learning material, MCQs for pre- and post-training evaluation, Session-wise FAQs and links to videos related to Theme 7.

We are confident that this module will prove to be an invaluable resource for the Faculty of NIRDPR and the SIRDPR during the training of Master Resource Persons on Theme 7 of Localization of SDGs. Together, let us march forward on the path of progress, leaving no village behind, and realizing the vision of a better, inclusive, and sustainable world.

Dr. G. Narendra Kumar, IAS  
Director General

## VOL-1: Training Design

### Theme 7: Socially Just and Socially Secured Village

#### 1. Background:

The Ministry of Panchayati Raj (MoPR), Government of India, has advised that all Capacity-building and training initiatives for Panchayati Raj Institutions (PRIs) must take place focusing on Sustainable Development Goals (SDGs). PRIs, being the nearest institution to villagers, is best placed to design and implement locally relevant policies aligned with the SDGs. It is expected that PRIs can link the National/State goals and targets with local communities and achieve sustainable development through effective Panchayat Planning, particularly the Gram Panchayat Development Plan (GPDP).

SDGs are a set of global objectives established by the United Nations (UN) to address various social, economic, and environmental challenges the world faces. They were adopted in September 2015 by all 193 UN member states as part of the 2030 Agenda for Sustainable Development, which provides a shared blueprint for peace and prosperity for people and the planet. The SDGs build upon the Millennium Development Goals (MDGs), which were a set of eight goals established in 2000 to tackle issues such as poverty, hunger, and disease. However, the SDGs are more comprehensive and encompass a broader range of concerns, aiming to achieve a more inclusive and sustainable future for all.

सशक्त पंचायत सतत् विकास

The Expert Committee constituted by the MoPR on Localization of SDGs recommended 9 Thematic Areas termed Localized Sustainable Development Goals (LSDGs) along with local targets and indicators (as stated summarily in Table 1.1). It is envisaged that the 9 Themes would lay the foundation for the vision of PRIs for local-level planning to mainstream and achieve the LSDGs. These themes are expected to help PRIs adapt, implement and monitor SDGs in their areas. It is also expected that the LSDGs would guide PRIs in formulating comprehensive GPDP and, on the other hand, proper implementation of Panchayat Plans would deliver on SDGs.

## 2. Vision of Theme 7: Socially Just & Socially Secured Village

***“Every person in the village must feel cared for and all eligible must be covered by social security systems”***

The Gram Panchayats are mandated under the Constitution of India to plan and implement schemes for the wellbeing of vulnerable and marginalized groups like SCs, STs, persons with disabilities, elderly, women, children, distressed migrants, ultra-poor, manual scavengers, transgender and victims of trafficking etc. Various welfare programs of Central & State Governments under Social Security support individuals and family's dependent on the State for their basic needs.

These include direct benefits transfer in cash (social security pensions), provision of basic staple food through the Public Distribution System (PDS), housing, water, assistance in unforeseen circumstances like accidental death/ injuries, losses in natural calamities, etc. The State also provides assistance to support those ultra-poor and poor to improve their income levels. Safety is a necessary part of social security, and lack of safety adversely affects mental, physical and economic well-being. In the true understanding of the Preamble of the Constitution, overcoming the negative impact of the hierarchical caste system in daily life in the village is part of the socially just and socially secured Gram Panchayats (GPs).

### 3. Objectives of the Training Programme:

Facilitating the Panchayats to ensure socially secured villages is the overall training objective. The specific training objectives are given below:

- To develop a common understanding among SLMTs about the background and context of LSDGs for their attainment through Theme-based Panchayat Plans.
- To enhance their understanding of various concepts related to Theme-7 socially secured villages in the context of SDGs.
- To expand the horizon of their vision on how to plan for ‘Socially Secured Villages’ through Panchayat Plans, particularly GPDP.
- To enable the Panchayats to plan, implement and monitor the progress for a socially secured village.
- To develop a common understanding among them about the responsibilities of SLMTs in developing the capacity of Trainers down the line through cascade mode.

### 4. Training Approach:

Social protection or social security systems, including grassroots, are essential to ensure that no one is left behind. Social protection or social security is a human right. The success of national social protection floors in achieving gender equality, respect for the minimum core of economic, social and cultural rights and protecting marginalised groups, such as children, older persons, persons with disabilities, informal workers, migrants, and non-national, will depend

on whether they are established and implemented according to human rights standards and principles. They are fundamental to preventing and reducing poverty across the life cycle, also including cash transfers for children, mothers with newborns, for persons with disabilities, for those poor or without jobs, and older persons.

There is an important role for social dialogue. Building consensus around reforms, including across government ministries and among different stakeholders, is an important consideration. This consists of policies and programmes designed to reduce poverty and vulnerability by promoting efficient labour markets, reducing people's exposure to risks, and enhancing their capacity to manage economic and social risks, such as unemployment, exclusion, sickness, disability and old age.

Local Indicator Framework (LIF) was suggested by the Expert Committee for Localization of Sustainable Development Goals through PRI. There are 27 targets (one is repetitive) and 79 LIF as per inter-sectoral thematic SDG arrangements. The PRIs can further modify the same based on local situations. These indicators are drawn from several SDG goals. As detailed in the module, there can be a minimum of nine targets for GPs to achieve socially secured village status. The indicators pertaining to each target can also be discussed during the course of the training.

‘Socially Secured Village’ is an inter-sectoral theme. This theme has several sub-themes as well. These sub-themes are referred to here as targets for GPs. Rather than straight away dealing with SDG targets for GPs related to ‘Socially Secured Villages,’ it is first given a basic introduction for social security to SLMTs, the role of GPs in socially secured villages and the relevance of SDGs in the context of socially secured.

This Training Module for SLMTs is more activity-based, following the 27 Targets set to address Theme-7 (Table 1.2), than based on the conventional concept of their orientation by Subject Matter Specialists and Resource Persons. However, based on their own experience of ground realities and perception of social realities in rural areas, the SLMTs will visualize, and help the Trainers down the line to visualize what PRIs, particularly GPs, can do to address the various social dimensions in achieving the ‘Socially Secured Village’ through LSDGs focused Panchayat Plans. The Faculty Members and Resource Persons will provide insight into various best practices to expand the horizon of thoughts and imagination of the SLMTs, who will disseminate them to the GP level through Trainers operating at different levels.

**Table 1.2: Targets to be Achieved by PRIs to Address Theme-7: Socially Secured Village**

Target No.	Description of The Targets
1	To facilitate to improve the living standards of BPL households
2	Implement social protection schemes for all

25	Significantly reduce all forms of violence and related death rates
26	Significantly reduce all forms of violence and related death rates
27	Provide Aadhar cards for all

## 5. Outcomes Expected from this Training Programme:

It is expected that this residential Training will enrich the SLMTs with substantial capacity (in terms of knowledge, awareness, attitude, skills and self-confidence) about the rationale and policy of a thematic approach to mainstreaming of LSDGs in Panchayats, particularly GPs, and about the issues related to the theme-7: socially secured village as well as the interventions required for making it happen. It is also expected that they will deeply understand their own roles and responsibilities and the tasks to be performed by them, including grooming the Trainers down the line and developing appropriate learning materials in the local language to suit multi-level stakeholders.

Social Security is an all-encompassing theme. Necessary to actively list out social security measures under each goal, target and indicator. To cover different aspects – age, gender, disability, social, and economic categories. This will fulfil the objective of creating a socially secured village.

**Note for Trainer:**

- The training module's learning material can be shared with the participants in advance.
- In the evening of the first two days, the SLMTs will work in smaller groups, go through the training modules and the learning materials to prepare an Indicative Action Plan in the given format for the subject discussed and based on the Targets as mentioned in Table-1.2.

## VOL-2: Learning Material

### Theme 7: Socially Just and Socially Secured Village

#### Chapter 1: Concept and Significance of Socially Secured Village

##### 1. Session Objective:

- To Introduce the concept and significance of socially secured village

##### 2. Duration: 45 minutes

##### 3. Session Plan

No	Sub topics of content	Duration	Method	Tools
1	Socially secured village: Introduction	15 Minutes	Interactive lecture	LCD, PPT Chart paper Marker
2	Significance of socially secured GP <ul style="list-style-type: none"> <li>• Social inclusion</li> <li>• Social Justice and Equity</li> <li>• Social engagement and participation</li> </ul>	30 Minutes	Interactive lecture Brainstorming	Note :1 LCD, PPT Chart paper Marker

**Note for Facilitator:** The facilitator will ask the participants what do they understand by socially secured GP. S/he can also ask for some examples also. Facilitator will write the major points in the board and will summarize the responses of the participants.

##### 3.1. Introduction:

Every person in the village should be protected, and all the persons should get the benefit of social security systems. Social security or social security systems are essential to ensure that no one is left behind. The Indian Constitution guarantees the provision of social security to all citizens.

Social protection or social security systems, including floors, are essential to ensure that no one is left behind. Social protection or social security is a human right. The success of national social protection floors in achieving gender equality, respect for the minimum core of economic, social and cultural rights and protecting marginalized groups, such as children, older persons, persons with disabilities, informal workers, migrants, and non-nationals, will depend on whether they are established and implemented according to human rights standards and principles. They are fundamental to preventing and reducing poverty across the life cycle, also including cash transfers for children, mothers with newborns, for persons with disabilities, for those poor or without jobs, and for older persons. There is an important role for social dialogue. Building consensus around reforms, including across government ministries and among different stakeholders is an important consideration.

### 3.2. Significance of Socially Secured Gram Panchayats:

The social security for all citizens includes the determination of new policies and programs to increase the capacities of the people and reduce poverty and inequality by promoting skilled labor, minimum wages and managing the economic and social risks such as unemployment, social exclusion, disease, disability and old age, and these programs include both cash grants and services. Social security systems also work fundamentally to prevent/reduce poverty in the life cycle and prevent the transfer of poverty from generation to generation

Thus, it's the Protection that a society provides to individuals and households to ensure:

- a) access to basic facilities and entitlement, including housing, sanitation, health care, etc.
- b) income security
- c) socio-cultural security
- d) violence-free community
- e) a participatory, enabling and inclusive environment for all.

### 3.3. Social Inclusion:

The process of improving the terms on which individuals and groups take part in society by realizing and recognizing the identity, dignity, ability and opportunity of those disadvantaged.

### 3.4. Social Justice:

Social equity is impartiality, fairness and justice for all people in social policy. It takes into account systemic inequalities to ensure everyone in a community has access to the same opportunities and outcomes.

### 3.5. Social Equity:

It is the view that deserves equal economic, sociocultural and political opportunities that include fairness in accessing to housing, health care, employment and others.

### 3.6. Social engagement and participation:

Social engagement (also social involvement, social participation) refers to one's degree of participation in a community or society.

2. New policies and programs.
3. Cash grants.
4. Social equity.
5. Engagement and participation

## Chapter 2: Concept and Context of Social Vulnerability Mapping

### 1. Session Objective:

- To understand about social vulnerability profile of their respective GPs
- To identify the available social security schemes and programmes

### 2. Duration: 60 Minutes

### 3. Session Plan:

No	Subtopics of content	Duration in Min	Method	Tools
1	Social Vulnerability Mapping <ul style="list-style-type: none"> <li>• Concepts and context</li> <li>• Mapping of vulnerable groups</li> </ul>	20 Minutes	Group work	Note : 1 LCD, PPT Chart paper Marker
2	Mapping of Available social security schemes and programmes (Government & Other Agencies)	25 Minutes	Interactive Lecture Group work	Note : 2 LCD, Chart Paper, Marker
3	Sharing by the participants and summing up by the facilitator	15 Minutes	Sharing	Chart paper Marker

### 3.1. Introduction to Social Vulnerability Mapping:

**Social Vulnerability:** Social vulnerability is a term describing how resilient a community is when confronted by external stresses on human health. These stresses can range from natural or human-caused disasters to disease outbreaks. By reducing social vulnerability, we can decrease both human suffering and economic losses.

### 3.2. Factors of vulnerability:

- ✓ Physical/infrastructural factors: Vulnerabilities stemming from inadequately constructed buildings and unregulated land use planning etc.
- ✓ Social factors: Vulnerabilities rooted in societal aspects, such as demographics, education, and community cohesion etc.
- ✓ Health factors: Vulnerabilities related to the health status and healthcare access of a population.
- ✓ Economic factors: Vulnerabilities arising from economic conditions, income disparities, and financial stability.
- ✓ Environmental factors: Vulnerabilities linked to the natural environment, including climate, geography, and ecosystem etc.

**3.3. Vulnerability Mapping:** It is identifying the individuals and categories for vulnerable and are in need of social protection

### 3.4. How to identify?

- ✓ By using PRA tools
- ✓ Household data collection and secondary data compilation
- ✓ FGDs (Focus Group Discussion)
- ✓ Gram Sabha and Special Gram Sabha.

### 3.5. Mapping of Vulnerable Groups:

- ✓ Poverty
- ✓ Class/caste
- ✓ Race/Ethnicity
- ✓ Religion
- ✓ Gender
- ✓ Age as the elderly (> 65), the children (<5)
- ✓ Disability
- ✓ Health
- ✓ Language, literacy and culture
- ✓ Environmental factors
- ✓ Households and families, such as single-parental households.

### 3.6. Mapping of available Social Security Schemes and Programmes (Government & Other Agencies)

✓ Atal Pension Yojna (APY)
✓ Pradhan Mantri Suraksha Bima Yojna (PMSBY)
✓ Pradhan Mantri Jeevan Jyoti Bima Yojna (PMJJBY)
✓ Pradhan Mantri Anusuchit Jati Abhyuday Yojana (PM-AJAY)
✓ Pradhan Mantri Shram Yogi Maan-Dhan (PM-SYM)
✓ National Social Assistance Program (NSAP)
✓ Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA)
✓ Deendayal Antyodaya Yojana -National Rural Livelihood Mission (DAY-NRLM)
✓ Pradhan Mantri Rojgar Protsahan Yojana
✓ Employment Promotion Scheme
✓ National Career Services

✓ Prime Minister's Employment Generation Programme (PMEGP) and other Credit Support Schemes
✓ Pradhan Mantri Mudra Yojana (PMMY)
✓ North East Region Livelihood Project (NERLP)

#### 4. Group Exercise: Vulnerable group-wise discussion Format for Factors leading to vulnerability

##### Discussion Format

Vulnerable Group	Factors leading to vulnerability	Relevant Schemes (Central + State)	Corresponding Ministries/ departments and institutions (Central + State)

##### Note for Facilitator:

- Participants can be divided into two groups viz. Social Security Schemes and Employment Schemes and further into sub-groups depending upon the number of participants.
- Participants are asked to sit in different sub groups (may be giving different Panchayat names).
- Participants will discuss based on the above given discussion format and write the points for further discussion in a chart paper
  - Participants are asked to map vulnerable groups in their respective panchayats
  - Relevant Schemes (state and central) to aid the vulnerable groups will be identified by the participants
- Facilitator can ask any one sub-groups to share their points.
- Facilitator explains the different types of vulnerabilities which are being faced by different categories and the factors leading to vulnerability like poverty, inequality, disabilities, ageing, atrocities, discriminations etc.

- The facilitator will consolidate and share additional points
- After completing the exercise, the reading materials of Table 3 and Table 4 can be shared for further reference.

- 100% of eligible persons should be benefited under various social security schemes.
- Safe drinking water and sanitation facilities in 100% of the habitations.
- Availability of Ayushman Card to 100% eligible people.

*Figure 1: Role of PRIs for LSDG Theme 7- Socially just and Socially Secured Village*

### **3.2. Possible Interventions by the Panchayats for a Socially Secured Village (Economic Empowerment):**

- i. Identify all people in the productive age who have no/under employment and map their skills.
- ii. Map and list various production potential/labour potential/enterprise opportunities in the village.
- iii. Map employment opportunities suitable to persons with disabilities based on nature and degree of disability and facilitate job creation through convergence of ongoing schemes, sponsorships and ensuring local placements.
- iv. Identify potential candidates for setting up of enterprises and skill mapping of the interested candidates.
- v. Situation analysis of existing micro, small and medium enterprises within the Panchayat area.
- vi. Organize entrepreneurial development training/skill training.
- vii. Create effective and sustained mechanisms for liasoning and converging resources from various government departments, statutory agencies, financial agencies, R&D institutes, and educational institutions.
- viii. Provide handholding support for new enterprises/institutions.

### 3.3. Role of PRIs in creating a supportive environment for vulnerable groups:

The various activities which can be performed are as follows:

- ✓ Facilitate registration in PDS
- ✓ Develop criteria for identification of the poor, destitute and vulnerable
- ✓ Promote information about various schemes for poor and vulnerable groups
- ✓ Monitor the services
- ✓ Strengthen Gram Sabha for ensuring responsive, inclusive and participatory representation
- ✓ Ensure the timely access of the services to the citizen
- ✓ Plan rehabilitation for the differently abled person
- ✓ Ensure safe & secure environment for women and girl children
- ✓ Support rehabilitation of the victim and ensure legal action
- ✓ Ensure inclusive and quality education
- ✓ Ensure quality infrastructure in the schools & Health Centres
- ✓ Ensure complete registration of all births
- ✓ Ensure equal work opportunities
- ✓ Facilitate to generate employment

#### People who can support

- ✓ Literacy workers- For education
- ✓ Health workers- For health
- ✓ ASHAs- For Maternal and Child health.
- ✓ Teachers- For Schools
- ✓ Anganwadi Workers
- ✓ National Rural Livelihood Mission (NRLM) Community Resource Persons (CRPs)
- ✓ Various departments and agencies with relevant flagship schemes
- ✓ Social Justice Dept
- ✓ Police/ Home dept
- ✓ VLCPC
- ✓ VHSNC
- ✓ VWSC
- ✓ AMC
- ✓ SHG
- ✓ Rozgarsevaks
- ✓ Social activists,
- ✓ PTA/ school management committee (SMC)
- ✓ Local experts

### **Low Cost /No Cost Activities for Ensuring Benefits reaching to all vulnerable:**

- ✓ Organize talk show/awareness campaign / rallies on rights of the women & children.
- ✓ Provide support to the differently abled person.
- ✓ Formation of SHG & organize training on entrepreneur skill for livelihood
- ✓ Proactive disclosure of the information for transparency
- ✓ Awareness Campaign on different social security schemes
- ✓ Organize Gram Sabha for effective decentralization of rural governance

### **Procedure:**

- ✓ The Panchayati Raj Institutions are the nodal point at the district level. Their role is to help plan, coordinate, monitor and, wherever required regulate the implementation of various national programmes.
- ✓ It can lead to closer relationship between government officials and village people, all the developmental plans in village includes a less privileged class to discuss the participation of people is the important pillar of good governance
- ✓ It allows penetration of Centre or state policies and programmes at remote areas of every village through local representatives.
- ✓ Lead to end of corruption and malpractices.
- ✓ Many panchayats contributed significant efforts in employment generation and growth of small and cottage industries, encouraged farmers and labor class to contribute in agriculture in more scientific way and other related sectors, this assured village people a sense of security.

### **Convergence with other agencies for community development**

- ✓ Substantial public investments are being made for strengthening of rural economy and livelihood base of the poor, especially the marginalised groups like SC/STs and women.
- ✓ To effectively address the issue of poverty alleviation, there is a need to optimise efforts through inter-sectoral approaches.
- ✓ The convergence of different programmes like Watershed Programmes, National Agriculture Development Programme (Rashtriya Krishi Vikas Yojana), National Horticulture Mission, Scheme of Artificial Recharge of Ground Water through Dug well, BRGF, with NREGA will enable better planning and effective investments in rural areas.
- ✓ This convergence will bring in synergies between different government programmes/schemes in terms of planning, process and implementation. This will also facilitate sustainable development.
- ✓ Convergence of funds from other sources can help in the creation of durable assets. For instance, funds available with PRIs from other sources such as the National Finance Commission, State Finance Commission, State Departments, and other Central or Centrally Sponsored Schemes such as SGSY, DPAP, DDP, IWDP, BRGF can be dovetailed with other rural development funds for the construction of durable community assets under the works permissible.

## 7. CASE STUDY

### 7.1 Best Practice: Engagement of community members to improve financial inclusion - Ranchi district (Jharkhand):

*“Rural beneficiaries preferred Bank Sakhis to address their banking queries, due to their existing interpersonal relationships in rural areas and due to the local language.”*

In order to promote financial inclusion and financial literacy among rural households, the district administration of Ranchi deployed women SHGs as ‘Bank Sakhis’, or banking correspondents. The aim of the initiative was to promote financial literacy. As part of the initiative, a Bank Sakhi is placed at a rural bank branch to assist the local population with their banking requirements and while also educating them on various aspects of banking. The initiative found that rural beneficiaries preferred Bank Sakhis to address their banking queries due to their existing interpersonal relationships in rural areas and their use of the local language. The Bank Sakhis conduct regular evening classes in their villages on financial literacy and digital banking. The SHGs have conducted various drives in the village, teaching rural citizens on the use of UPI and the Bhim App. Rural Women SHGs have been deployed as banking correspondents in specifically those villages where banking systems were unable to penetrate effectively.

### 7.2 Best Practice: Kurichiyarpatti (Tamil Nadu), a 100% socially-secured village

Kurichiyarpatti village in Rajapalayam union has achieved a unique feat of all persons above 18 years of age from 290 families have enrolled themselves under the Central government-sponsored old age pension scheme and life insurance and accident insurance schemes.

“Kurichiyarpatti has become a 100% socially-secured village with all the eligible persons having joined the schemes. It was planned to replicate this model in at least 100 villages that will provide financial stability for each family,” - Collector J. Meghanath Reddy

## 8. Group Exercise and Presentation

### Note 1 for Facilitator:

- ✓ Facilitator makes an interactive presentation on the SDGs and asks the participants which all SDGs are most relevant to socially secured villages. (Open discussion)

- ✓ Facilitator informs the participants that there are linkages between SDGs. It is not a single SDG, rather several SDGs contribute for a secured village.
- ✓ Facilitator sums up discussion with the help of PPT/chart on SDGs

### Note 2 for Facilitator:

- ✓ Facilitator tells the GPs that are based on the 80 enlisted indicators related 'Socially Secured Village'. This is given in Report of Expert Group vol. 2, page 131 to 149. As per this report there are 27 modified targets for GPs. For the easy understating of GPs, this could be summarized into eleven targets as detailed above.
- ✓ The Panchayats can further modify the same based on local situations. These indicators are drawn from several SDG goals.
- ✓ The indicators pertaining to each target can also be discussed during the course of the training. 'Socially secured village' is an inter-sectoral theme. This theme has several sub themes as well. These sub themes are referred here as targets for GPs.

### Group Activity

- Participants will be divided into groups based on targets like Poverty free village, nutritional security etc. Each group will discuss about the above allotted 11 (eleven) targets to each group.
- Each group will understand the respective targets and discuss possible interventions.

### Group discussion Format

**Target: Aged friendly Panchayat (eg)**

Sl.No	Activities to be taken up by Panchayats

### Note 3 for Facilitator:

- ✓ After the group work, each team will present the task and facilitator will sum-up.
- ✓ It is very important presentation as the activities enlisted in this group exercise will give more clarity about the targets under Theme-7 which can bring positive changes

## Chapter 5: Details of targets and LIF for plan preparation and integration into GPDP

4	Caselet Solving and Self - assessment of the progress made	45 Minutes	Participants	

The basic objective of the session is to make them realize the importance of data and how the GP has to work more on collecting and collating it from different sources and analyze so as to prioritize interventions.

**Note 1:** Facilitator will introduce the data needs specific to this SDG theme and the targets proposed for the GPs as per the previous discussions

GP wise groups will be formed to discuss the data gaps as well as the available data on the theme and how to collect or collate them. They will also discuss on how to fill the data gaps

**Note 2:** Explain monitoring (what to monitor, who to monitor and how to monitor) with relevant examples

Facilitator asks the GPs who monitors at present (for example malnutrition ratio (below 5 years) and how?

**Note 3:** Facilitator explains the available monitoring mechanism and self-assessment with the GPs at official and community level. Facilitator should tell the GPs, how important community level monitoring is.

Participants are divided into Panchayat wise sub groups and are requested to monitor the progress of targets and proposed activities based on the given format?

### Brief Description of eGramSwaraj

#### Objectives:

To strengthen e-Governance in Panchayati Raj Institutions (PRIs) across the country, Ministry of Panchayati Raj (MoPR) has launched eGramSwaraj, a user-friendly web-based portal. eGramSwaraj aims to bring in better transparency in the decentralised planning, progress reporting and work-based accounting.

The primary objective is to improve the quality of decision making by providing access to all important data by solving the complexity and the existence of several key performance indicators in highly structured form with complete information.

#### eGramSwaraj Portal:

Summarized points of “eGramSwaraj” running web interface portal of Ministry of Panchayati Raj, Government of India.

**Portal Website URL:** <https://egramswaraj.gov.in/>

The “**eGramSwaraj**” web interface portal primary focus on capturing & showing all the details related to ZPs, BPs & GPs physical, financial & analytical data. Like address of all GPs with their contact details and its ER details, funds utilized by GPs, BPs & ZPs as per their submitted plan including audit report on its allocated fund and other observation on its financial regularities. This portal gives detail data of assets owned by the PRIs and few more details.

### **Training Management Portal**

## (TMP)

**Portal Website URL:** <https://www.trainingonline.gov.in>

### Introduction:

Training Management Portal (TMP) 2.0 was launched on 8<sup>th</sup> April 2021. It is a single platform to monitor Real time progress of trainings conducted through various sponsorship schemes *i.e.*, RGSA etc. by States/UTs, Districts and Blocks in different training categories and subject areas. The organizer of training such as SIRD, PRTI, ETC, DPRC, DPRO, BPRC uploads the details of their trainings conducted at their institutes.

Training Management Portal is meant to address the training management need of the government organizations. It will help the organizations in capturing the Training demands/needs of the Elected Representatives and officials. Such detailed need capturing of training can lead to sizing the demand and preparation of training calendar and resource estimation. A training Calendar will automatically publish upon uploading of a training program and can be tracked from citizen section of the portal.

The screenshot displays the homepage of the Training Management Portal (TMP) 2.0. The top navigation bar is green and contains links for 'Thematic Training Resources', 'Training Management Dashboard', 'eBook PDF', 'FAQs', 'Home page of Training Organization', 'Login', and 'LOGIN AS TRAINEE'. Below the navigation bar, the header features the Government of India emblem, the text 'Training Management Portal' and 'Government of India | Ministry of Panchayati Raj', the G20 India 2023 logo, and the IP-S II logo. The main banner has a green background with a geometric pattern and the text 'A Single Platform FOR CONSUMERS (TRAINEES) AND PROVIDERS.' It includes illustrations of people at computers, a map of India, and a globe. At the bottom, a white box contains the text 'About Training Management Portal'.

## **Objectives of TMP:**

- (a) It facilitates to upload the training where it has been conducted i.e., if the training program is conducted in a ETC, so it may be uploaded at ETC level.
- (b) The Training Calendar will be automatically published on adding any new Training.
- (c) Training Process Scheduler: a checklist for various training activities.
- (d) Online Repository of Resource person and Master Trainer; and Training Materials (PDF/PPT/DOC etc.).
- (e) Submission of online Feedback of Trainings.
- (f) Generation of Participation *e*-Certificate.

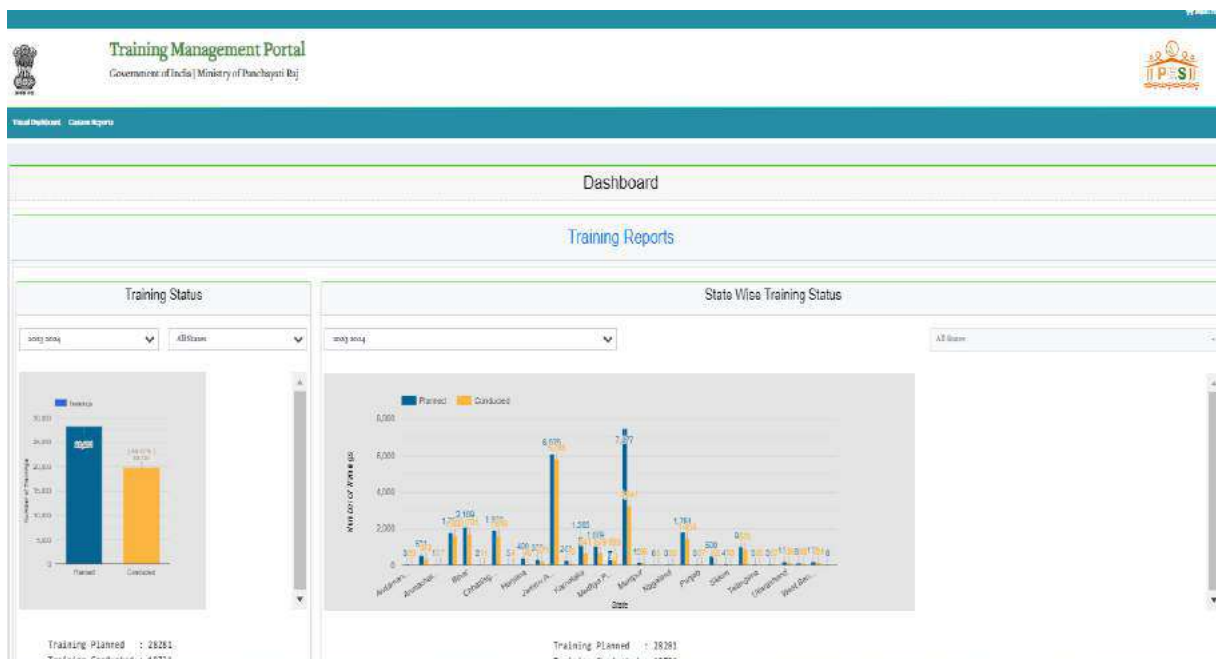

## **Training Monitoring Dashboard:**

TMP Dashboard is a very useful tool to monitor real time progress of training conducted by training institutes of the States and National Institute of Rural Development and Panchayati Raj. Salient features of the dashboard are:

1. Overall progress of trainings *i.e.*, **actual number of trainings planned and conducted.**
2. Total number of Trainings attended by various stakeholders.
3. Total participants trained in various categories of trainings such as GPDP and Non-GPDP.
4. Number of trainings attended by different stakeholders.
5. Training Category and Subject Area-wise progress of trainings.
6. State-wise comparative Analysis of Progress of Trainings.
7. State-wise Attendance of Participants.
